# EYFS Maths Assessment

# Progression of Skills Document

		Ass	essment Focus (	1): Object Cour	nting				
(a) I can use one-to-one correspondence when counting and understand that the last number said is the number in the set.	(b) I can count up to 5 objects (including different sized objects) moving each as they are counted.	objects ca any order and the a	derstand that an be counted in or arrangement nswer is still the same.	(d) I can count objects (inc different sized moving each as counte	luding l objects) s they are	(e) I can count out a g amount up to 10 (identified verbally written) from a grea set.	or	(f) I can reliably count up to 20 objects moving each as they are counted and also take amounts up to 20 from a greater set.	
	Assessment Focus (2): Matching quantities and numerals - Counting sets of objects.								
(a) I can use one to one correspondence when cour and I understand the las number said is the numbe the set	t (including differe objects), moving ear in are counter	(b) I can count up to 3 objects (including different sized objects), moving each as they are counted. I can match the set to the		up to 5 objects fferent sized ng each as they unted. the set to the neral	(includ objects),	(d) I can count up to 10 objects (including different sized objects), moving each as they are counted.  I can match the set to the numeral.		(e) I can count up to 20 objects     (including different sized     objects), moving each as they         are counted.     I can match the set to the         numeral.     Count reliably with numbers     from 1 to 20. Number ELG	
Assessment Focus (3)	Perceptual Subitising (II	nstant reco	gnition of small	quantities) Co	nceptual S	Subitising (recognising	g sma	ll gps within a whole)	
(a) I can recognise familia arrangements for numbers to 5 when on a dice or dom	objects up to 5 when	n placed in	objects from	fy quantities of 1 to 3 when randomly	7 7	explore arrangements ities within 5 using a ten frame	(su <b>Sub</b>	can state without counting bitise) quantities within 5 itise (recognise quantities thout counting) up to 5.  Number ELG	
	Assessment Focus (4): Counting pictures that cannot be moved.								
(a) I can count up to 5 objee moving each as they are counted		d, marking		np to 10 pictures moved, <b>marking</b> are counted	pictures, t	an count up to 20 hat cannot be moved, ng each as they are counted	strat side are	can count up to 20 pictures without marking using a regy such as starting at one personal pictures a included and that none been counted more than	

once.

Count reliably with numbers	
from 1 to 20. Number ELG	

#### 

	Assessment Focus (1): Counting Objects - Counting Beyond Ten					
(a) I can count up to 10 objects, moving each as they are counted Count out a group of 10 objects from a greater set	(b) I can recognise that when a ten frame is full this represents 10  Recognise a 10 Numicon Shape	(c) I can arrange a group of 11 to 19 objects into 1 group of 10 plus another group	(d) I can use structured equipment number such as bundles of art straws, Unifix (tower of 10), Ten Frame with counters to create a group of 10 plus another group	(e) I can understand that 'teen' numbers are a group of 10 plus another number		
	Assessment	Focus (2): Counting Objects - C	ounting in 10s			
(a) I can fill a Tens Frame and know this makes ten items.	(b) I can count out a tower of ten blocks. I know this is one full ten and no spare ones.	(c) I can make a series of tens towers and begin to count the pattern of multiples of 10, e.g., 10, 20, 30.	(d) I can make a given multiple of ten using Numicon, Tens Frames, Number Rods or Tens Towers. I can count in multiples of 10 and identify the number in the set.	(e) I can make a given multiple of ten using Numicon, Tens Frames, Number Rods or Tens Towers. I can count in multiples of 10 and identify the number in the set.		
	Assessment Focus (3): Cour	nting Objects - Mathematical Re	epresentations and Graphics.			
(a) I can represent a given amount up to 3 using marks and pictures and explain my jottings.	(b) I can represent a given amount up to 5 using marks and pictures and explain my jottings.	(c) I can represent a given amount up to 10 using marks and pictures and explain my jottings.	(d) I can represent my simple mathematical ideas and calculations using pictures symbols and numerals and explain it.	(e) I can represent my simple mathematical ideas and calculations using pictures symbols and numerals and explain it.		
	Assessment Focus (4	): Counting Objects - Mathema	atical Representations			
(a) I can represent a given amount up to 3 using objects and pictures.	(b) I can represent a given amount up to 5 using objects and pictures.	(c) I can represent a given amount up to 10 using objects and pictures.	(d) I can represent a given amount up to 20 using objects and pictures.	(e) I can represent my simple mathematical ideas and calculations using objects and pictures.		
Assessment Focus (5): Comparing groups of objects or numbers						
(a) I can identify a set that has more and a set that has fewer	(b) I can identify a set that has more and a set that has fewer	(c) I can identify a set that has more and a set that has fewer using the correct language.	(d) I can identify a set that has more and a set that has fewer using the correct language.	(e) I can identify the difference in number between one set and another. Have a deep		

by pointing/ highlighting when	by pointing/ highlighting when	(Range up to ten)	(Range above ten and sets may	understanding of number to 10,
requested.	requested.		be similar in amount)	including the composition of
(Sets are very obviously	(Range up to ten)			each number. Number ELG
different)				

#### Reception Maths progression of skills document Numbers - Reading and Writing

ASSESSMENT FOCUS (1): Reading and ordering numerals						
(a) I can name the numerals 1-3 when shown out of order and I can place these numerals in order.	(b) I can name the numerals 1-5 when shown out of order and I can place these numerals in order.	(c) I can name the numerals 1- 10 when shown out of order and I can place these numerals in order.	(d) I can name the numerals 1-20 when shown out of order and I can place these numerals in order.	(e) I can confidently identify and name the numeral that is after, before, between numerals to 20.		
	ASSESSMENT FOCUS (2): Ordering numerals					
(a) I can put the numerals 0 to 5 in order when all are given	(b) I can put the numerals 0 to 9 in order when all are given	(c) I can put the numerals 0 to 20 in order when all are given	(d) I can find the numeral that comes before, after or between a given numeral in a range to 20.	(e) I can order a random set of numerals within the range 0 to 20		
	ASSESSMENT FOCUS (3): Recording numerals					
(a) I can make marks to represent numerals.	(b) I can write the numerals 1 to 3 for a given purpose.	(c) I can write the numerals 0 to 5 for a given purpose.	(d) I can write the numerals 0 to 9 for a given purpose.	(e) I can write the numerals 0 to 20 for a given purpose.		

#### 

	Assessment Focus (1): Ordering pictorial number representations.					
(a) I can order the pictorial representations of the numbers from 0-5.	(b) I can order the pictorial representations of the numbers from 0-9.	(c) I can order the pictorial representations of the numbers from 0-20.	(d) I can find the pictorial number representation that comes before, after or between a given pictorial number representation in a range to 20.	(e) I can order a random set of pictorial number representations within the range 0 to 20.		
	Assessment Focus (2): Ordinal Numbers					
(a) I can follow instructions including ordinal numbers for first, second and third. (Lining up. Order in a game/ race)	<ul><li>(b) I can follow instructions including ordinal numbers for first, second, third- tenth.</li><li>(Lining up. Order in a game/ race)</li></ul>	(c) I can correctly use some ordinal numbers in context, e.g., lining up or racing.	(d) I can correctly use many ordinal numbers in context, e.g., lining up or racing.	(e) I am beginning to read and write ordinal numbers. (Labelling a picture or results of a race)		
Assessment Focus (3): Ordering numerals						
(a) I can put the numerals 0 to 5 in order when all are given	(b) I can put the numerals 0 to 9 in order when all are given	(c) I can put the numerals 0 to 20 in order when all are given	(d) I can find the numeral that comes before, after or between a given numeral in a range to 20.	(e) I can order a random set of numerals within the range 0 to 20		

#### Reception Maths progression of skills document Finding one less and Subtraction

	Assessment	Focus (1): Finding one less/ one f	ewer (objects)			
(a) I understand the concept of finding one less object as removing one amount from within another.	(b) I know that fewer and less mean the same thing, but fewer is used when counting objects and removing/ taking away objects from an existing group. (Working with objects to 5)	(c) I know that one less is the next number in the counting sequence when counting backwards in ones.  -I find the number that is one less within 1-5 by using objects, number lines and mental recall.	(d) I know that one less is the next number in the counting sequence when counting backwards in ones.  -I find the number that is one less within 1-10 by using objects, number lines and mental recall.	(e) I know that one less is the next number in the counting sequence when counting backwards in ones.  -I find the number that is one less within 1-20 by using objects, number lines and mental recall.		
	Assessment Focus (2): Rote counting backwards					
(a) I can join in with rote count backwards from 5 to 1	(b) I can rote count backwards from 5 to 1	(c) I can rote count backwards from 10 to 1	(d) I can rote count backwards from 20 to 1.	(e) I can rote count backwards from larger numbers e.g. 50.		
	Д	Assessment Focus (3): Counting Ba	ack			
(a) I understand the concept of take away and counting back one as the removal of one object.	(b) I know that two/three/four less is found by removing two/three/four objects from an existing group of objects	(c) I recognise that two less is one less and another one less, three less is one less, and one less and one less, etc.	(d) I understand and can use number lines to count back small jumps of 1, 2 or 3 more jumps.	(e) I can count back smaller numbers using mental calculation.		
	Assessm	ent Focus (4): Subtraction - Remo	oving items			
(a) I understand that the terms take away / subtract relate to removal of one group from another.	(b) I can remove a given amount from a greater set (with a whole of up to 5) counting to identify how many are left. I know the answer is how many are left.	(c) I can remove a given amount from a greater set (with a whole of up to 10) counting to identify how many are left	(d) I can use some mental calculation skills.  Automatically recall number bonds up to 5 (including subtraction facts) Number ELG	(e) I can subtract a single-digit number from a number greater than 10 using practical equipment		
Assessment Focus (5): Problem Solving with subtraction						
(a) I can solve simple problems using numbers to 5 with 1:1 support.	(b) I can solve simple problems using numbers to 5 with within a group.	(c) I can solve simple problems using numbers to 5. I can	(d) I can solve simple problems using numbers to 10. I can	(e) I can solve simple problems using numbers to 20. I can		

practically explore diffe ways using my own ide Adding, subtracting a sharing.	as. ways using my own ideas. using my own ideas.
--	--

Reception Maths progression of skills document Finding one more and Addition

		Assessment Focus (1): Finding one	more			
(a) I understand that to find one more, I need to add one object to an existing group of objects.	(b) I understand how to find one more object with sets in a range up to 5 by correctly adding on one more object.	(c) I know that one more is the next number in the counting sequence when counting forward in ones.  -I find the number that is one more within 1-5 by using objects, number lines and mental recall.	(d) I know that one more is the next number in the counting sequence when counting forward in ones.  -I find the number that is one more within 1-10 by using objects, number lines and mental recall.	(e) I know that one more is the next number in the counting sequence when counting forward in ones.  -I find the number that is one more within 1-20 by using objects, number lines and mental recall.		
	Assessment Focus (2): Rote counting forwards					
(a) I can join in with rote counting from 1 to 5	(b) I can rote count from 1 to 5	(c) I can rote count from 1 to 10.	(d) I can rote count from 1 to 20.	(e) I can rote count from 1 to 20+ e.g. 50 or 100 I can verbally count beyond 20, recognising the pattern of the counting system. NP. ELG.		
		Assessment Focus (3): Counting	On			
(a) I understand the concept of addition as combining sets of objects	(b) I know that two/three/four more is found by adding two/three/four objects to an existing group of objects	(c) I recognise that two more is one more and another one more, three more is one more, and one more and one more, etc.	(d) I understand and can use number lines to count on small jumps of 1, 2 or 3 more jumps.	(e) I can count on smaller numbers using mental calculation.		
	Assessm	ent Focus (4): Addition - combining	sets of objects			
(a) I understand the concept of addition as combining sets of objects	(b) I understand that the terms add, total, altogether relate to combining groups of objects	(c) I can combine two groups of objects (total within 5) counting how many are there.	(d) I can combine two groups of objects (total within 10) counting how many are there	(e) I can add two single-digit numbers totaling up to 10, using practical equipment		
	Assessment Focus (5): Addition using the Part-Part-Whole Model					
(a) I am beginning to combine two groups of objects to make a whole.	(b) I recognise that when the groups are combined the	(c) I can label the individual groups as parts.	(d) I can label the combined group of objects as the whole	(e) I understand the concept of addition by practically combining		

	number of objects is more than either of the individual groups			sets of objects to find how many using "part – part – whole"			
Assessment Focus (6): Addition - First, Then and Now Stories							
(a) I am beginning to combine two groups of objects to make a whole.  Reception Maths pro	(b) I can correctly follow an addition story, using First, Then and Now. I use practical equipment and my fingers to find the answers.  gression of skills document	(c) I can correctly tell an addition story in the correct sequence using First, Then and Now using practical equipment to support me.  Number Bonds and Proceedings of the correct of the	(d) I can correctly retell an addition story using first, then, now. I draw pictures and use the correct numerals to represent the parts and the whole.	(e) I can correctly retell an addition story using first, then and now. I draw out the pictures and record number sentences to represent the story.			
		Assessment Focus (1): Number E	Bonds				
(a) I can understand addition combining sets of objects.	as (b) I can understand the terms add, total, altogether relate to the idea of combing sets of objects.	V 7	(d) I can combine two sets (parts) to create ten (whole)  I can count sets in a range to 10 and practically find different ways using equipment.	(e) I can recall the pairs of numbers that bonds to total ten as a set of facts.  Automatically recall number bonds up to 5 and some number bonds to 10, including double facts. Number: ELG			
	Assessment Focus (2): Problem Solving						
(a) I can solve simple probler using numbers to 5 with 1:: support.			(d) I can solve simple problems using numbers to 10. I can practically explore different ways using my own ideas.  Adding, subtracting and sharing.	(e) I can solve simple problems using numbers to 20. I can practically explore different ways using my own ideas.  Adding, subtracting and sharing.			

Compare quantities up to 10 in different contexts, recognising when one quantity is greater

	than, less than or the same as	
	the other quantity. NP:ELG	

#### Reception Maths progression of skills document Comparison

	Asses	sment Focus (1): More than/le	ess than	
(a) I can compare two collections of items that are obviously different using the language 'more' and 'less'.	(b) I can count the amount of each group to find which has more and which has less.	(c) I can compare two groups of the same objects e.g. 2 groups of cubes.	(d) I can compare groups of different objects e.g. one group of cubes and one group of counters.	(e) I can compare two groups of different sized objects (where there are more of the smaller object) e.g. more small beads and less large animal toys.
	Assessment Focu	s (2): Identify groups with the sa	me number of things	
(a) I am beginning to understand through stories that groups can be equal.	(b) I can say when a group is 'equal' or 'the same'.	(c) I can check a group is equal by matching objects on a one-to-one basis.	(d) I can change two unequal groups into two equal groups e.g. a group of 5 and a group of 4.	
	Assessme	ent Focus (3): Comparing number	rs/quantities	
(a) I can recognise when a quantity has been unfairly shared e.g. someone getting 5 and the other person getting 3.	(b) I can compare numbers that are far apart from each other (this could be supported with number lines, unifix or Numicon)	(c) I can compare numbers that are near to each other (this could be supported with number lines, unifix or Numicon)	(d) I can compare numbers that are next to each other (this could be supported with number lines, unifix or Numicon)	(e) When shown two numerals I can compare these and say which is greater than, less than or the same as.  Compare quantities up to 10 in different contexts, recognising when one quantity is greater than, less than or the same as the other quantity. NP:ELG

# Reception Maths progression of skills document Doubling

Assessn	nent Focus (1): <u>Identifying/ Fin</u>	ding sets that have been double	ed and sets that have not been	doubled.			
(a) I can find two sets of objects that are the same with 1:1 adult support. (1-3 objects)	(b) I can find two sets of objects that have the same number with some support.  (1-5 objects)	(c) I can independently find two sets of objects that have the same number. (1-5 objects)	(d) I can independently find two sets of objects that have the same number. (1-10 objects)	(e) I can independently find two sets of objects that have the same number. (1-10 + objects- large sets)			
	Assessment Focus (2): Understand how to make sets the same in order to double them.						
(a) I can make another set that is the same for 1, 2 or 3 objects, with 1:1 adult support.	(b) I can make another set that is the same for 1-5 objects, with some adult support.	(c) I can independently make another set that is the same. (1- 5 objects)	(d) I can independently make another set that is the same. (1- 10 objects)	(e) I can independently make another set that is the same. (1- 10+ objects – large sets)			
Ass	Assessment Focus (3): Combine two sets of objects to double a number and count to find an answer.						
(a) I can begin to combine two sets of the same small number with 1:1 adult support. I am supported to use 1:1 counting and count all the objects.	(b) I can combine two sets of the same number and count to find the total with some support. (1- 5 objects)	(c) I can independently combine two sets of the same number and count to find the total.  (1- 5 objects)	(d) I can independently combine two sets of the same number and count to find the total.  (1- 10 objects)	(e) I can independently combine two sets of the same number and count to find the total.  (1-10 objects)			

Assessment Focus (4): Combine two numbers (numerals) to double a number. – Developing mental recall.					
(a) I am beginning to	(b) I understand that to double,	(c) I understand that to double,	(d) I understand that to double,	(e) I understand that to double, I	
understand that to double, I	I need to add the same small	I need to add the same number	I need to add the same number	need to add the same number to	
need to add the same small	number to itself. I can do this	to itself.	to itself.	itself.	
number to itself. (1-3)	with some support. (1-3)	I can double the numbers 1-5.	I can double the numbers 6-10.	I can double the numbers 10+	

### Reception Maths progression of skills document Sharing and Halving

Assessment Focus (1): Sharing					
(a) I understand that when an amount has been shared equally, all the parts are the same.	(b) I can recognise by counting, whether an amount has been shared.	(c) I can use practical equipment to share an amount into equal parts, in real life contexts.	(d) I understand and can identify if a number of items shared into equal parts.	(e) I understand and can explain if a number of items shared into equal parts. Explore and represent patterns within numbers up to 10, including evens and odds, double facts and how quantities can be distributed equally. NP:ELG	
Assessment Focus (2): Halving					
(a) I understand that when an amount has been shared equally between two, both parts are the same.	(b) I can recognise by counting, whether an amount has been shared equally between two or not.	(c) I can use practical equipment and equal sharing to find one half of an even number of objects, in real life contexts.	(d) I understand that the terms halving and sharing between two relate to splitting into two equal parts.	(e) I understand that halving is sharing into two equal parts.  Explore and represent patterns within numbers up to 10, including evens and odds, double facts and how quantities can be distributed equally.  NP:ELG	
	Assessment Focus (3): Splitting - Part- Part Whole Model				
(a) I can use the word 'whole' to describe a set of objects, e.g., in a group of 6 biscuits, the 'whole' is 6. I can use the word 'part' to describe the individual groups.		(b) I can partition the 'whole' set of objects between two	(c) I can use the word 'part' to describe each partitioned set of objects, e.g., 6 biscuits with 4 on one plate and 2 on another, the parts are 4 and 2 Explore and represent patterns within numbers		

		groups, e.g., 6 biscuits with 4 on one plate and 2 on another		nd odds, double facts and how ributed equally. NP:ELG		
	Assessment Focus (4): Pairing up – odds and evens.					
(a) I can find and make pairs of the same objects.	(b) I can pair up objects into twos from a set and talk about if all the objects have a partner. I can talk about if it is fair or not.	(c) I can begin to talk about if sets are odd and even by pairing up the objects into twos.	(d) I can begin to show an understanding of numbers being odd or even without needing to use objects to pair up.	(e) I can identify if numbers are odd or even by showing an understanding of the pattern of odd and even numbers.  (mentally- not using objects)  Explore and represent patterns within numbers up to 10, including evens and odds, double facts and how quantities can be distributed equally.  NP:ELG		

#### Reception Maths progression of skills document Shape

	Assessment Focus (1): Naming and identifying 2D Shapes					
(a) I can identify (point to) some of the common 2-D shapes for star, circle, and square.	(b) I can identify and name the common regular 2-D shapes for circle, square, triangle and rectangle/oblong.	(c) I can name common 2-D shapes including hexagons and pentagons, and I know that rectangles and oblongs are the same shapes.	(d) I securely use the correct terms to name common 2-D shapes, as I describe the 2-D shapes in my pictures, models and work.	(e) I am learning to recognise and name other 2-D shapes such as irregular shapes, and quadrilaterals such as the rhombus, kite and parallelogram.		
	Assessment Focus (2): Naming and identifying 3D Shapes					
(a) I can find/identify 3D shapes from sets of 2D and 3D shapes as I begin to recognise the properties of 3-D shapes.	(b) I can identify (point to) some of the common 3-D shapes, e.g. cube, cone or sphere.	(c) I can recognise and name the common 3-D shapes for cube, cuboid, sphere and cone.	(d) I can securely recognise, name and describe 3-D shapes - cube, cuboid, sphere, cone, cylinder and pyramid in the context of my pictures, models and work.	(e) I am now learning to recognise and name other 3-D shapes such as the different types of pyramids and prisms.		
		Assessment Focus (3): Desc	ribing Shapes			
(a) As I play with and explore shapes, I can use informal language such as pointy, round or flat.	(b) I can understand and begin to use the terms, 'straight', 'flat', 'curved' and 'edges' as I explore and identify shapes in the environment.	(c) I can show an understanding that sides and corners refer to <u>2D shapes</u> , and I can identify these on common 2D shapes.	(d) I can show an understanding that faces and solid refer to <u>3D shapes</u> , and I can identify and talk about these on common 3D shapes.	(e) I can describe 2D and 3D shapes, using mathematical language. Including language such as curved, pointed, sides, faces, solid, flat and vertex/vertices (corners on 3D). I can count faces and vertices.		
		Assessment Focus (4): Spat	tial Reasoning			

(a) I can match simple shapes by finding a shape that is the same.	(b) I can complete a simple jigsaw or shape puzzle.	(c) When completing jigsaws and shape puzzles, I can talk about why shapes will not fit, or why I chose a particular shape.	(d) I can copy 2D and 3D shape arrangements. I can explain where I am placing shapes in relation to one another. (using positional language) I can make 2D and 3D shapes using a range of resources.	(e) I can explain similarities and differences between shapes. I use my understanding of shapes to create my own shape designs, models and templates.			
	Assessment Focus (5): Using 2D shapes to make pictures.						
(a) I can explore using shapes and make arrangements with shapes. (No clear representation)	(b) I can create simple pictures with 2D shapes.	(c) I can create pictures using 2D shapes, and I can name the shapes I used.	(d) I can create pictures with 2D shapes and make careful choices about how shapes can tessellate and fit together.	(e) I can create pictures using a range of 2D shapes. I explain the choices that I have made about how the shapes fit together. I describe the properties of the shapes as I explain.			
	Assessment Focus (6): Combining shapes to make new shapes - spatial reasoning						
(a) I can sort and recognise shapes with the same properties.	(b) I can explore putting shapes together to make different arrangements and shapes.	(c) I can explore putting shapes together to make familiar recognisable shapes.	(d) I can combine shapes to make familiar shapes, and I can name the shapes that I have made.	(e) I can quickly identify how shapes can be placed together to create other shapes without the need for exploration.			

#### 

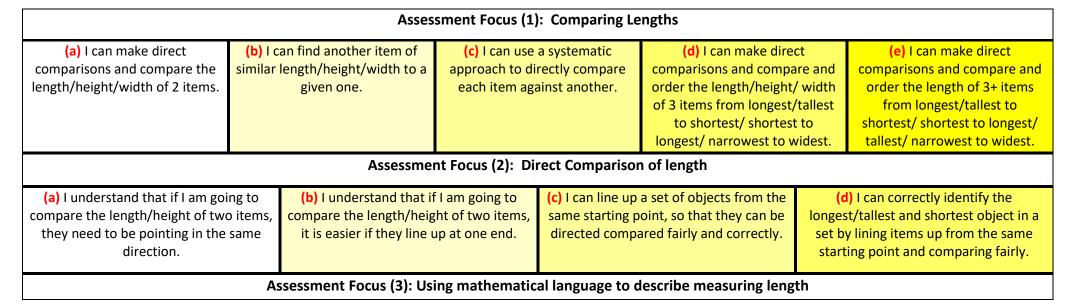

#### Reception Maths progression of skills document Measures - Weight

#### **Assessment Focus (1): Comparing Weights** (e) I can make direct (a) I can make direct (b) I can find another item of (c) I can use a systematic (d) I can make direct comparisons and compare the similar weight to a given one. approach to directly compare comparisons and compare and comparisons and compare and order the weight of 3+ items weight of 2 items. each item against another. order the weight of 3 items from heaviest to lightest/ from heaviest to lightest/lightest lightest to heaviest. to heaviest. Assessment Focus (2): Using balances (a) I can explore what happens when two objects are (b) I can use a balance scale to compare the weights of (c) I understand that if the balance scale is level, the placed on each side of a balance scale. two objects. I understand the lower side is the heavier objects being compared are equal in weight. object and the higher side contains the lighter object. Assessment Focus (3): Using mathematical language to describe measuring weight.

(a) I understand that weight refers to how heavy or light an object is.	the h	an identify (point to) eavy and light object when asked to.	(c) I can correctly use the term, 'heavy' when referring to an object.		(d) I can correctly use the term, 'light' when referring to an object.		(e) I can correctly use the terms heavy/ heavier, heaviest, light, lighter and lightest as I compare, describe and order the weight of objects.
	Assessment Focus (4): Using numbers and values to represent my measuring work.						
(a) I understand that the weig something can be represented number.		(b) I understand that to measure the weight of an object on the balance scale, the object must be placed on one side and the counting items placed at the other side, until the balance is level.		are <u>not</u> unifo	on-standard units (which orm, e.g. vary in size) to the weight of objects.		can use non-standard units (which niform, e.g. Unifix) to measure the weight of objects.

#### <u>Reception Maths progression of skills document</u> <u>Measures – Length and width</u>

(a) I understand that length refers to how long or short an object is.	(b) I can identify (poi long and short obje asked to.	-	(c) I can correctly use the term, 'long/ longer/ longest' when referring to an object.	'short/ sh	orrectly use the term, orter/ shortest' when ring to an object.	(e) I can correctly use the terms, long/ longer/ longest, short/ shorter/ shortest', as I compare, describe and order the length of objects.
	Assessment Focus (4): Using mathematical language to describe measuring height					
(a) I understand that height refers to how tall or short an object is.	(b) I can identify (point to) the tall and short object when asked to.		(c) I can correctly use the term, 'tall/ taller/ tallest' when referring to an object.	(d) I can correctly use the term, 'short/ shorter/ shortest' when referring to an object.		(e) I can correctly use the terms, tall/ taller/ tallest, short/ shorter/ shortest', as I compare, describe and order the height of objects.
	Assessment Focus (5): Using numbers and values to represent my measuring work.					
			can use non-standard units (which are <u>not</u> n, e.g. vary in size) to measure the length of objects.			andard units (which are uniform, easure the length of objects.

#### Reception Maths progression of skills document Measures - Time

Assessment Focus (1): Using language to describe the passing of time.						
(a) I can understand that I can compare events using words such as 'before' and 'after'.  (b) I can use the word 'before', understanding that it refers to preceding a particular event and that the word 'after' refers to following a particular event or item.		(c) I can use the word 'today', understanding that it refers to the current day.	(d) I can use and understand that the word 'yesterday', refers to the day before today and 'tomorrow' refers to the day after today.	(e) I can understand and correctly use language – before, after, yesterday, today, tomorrow		
	Assessment Focus (2): Measuring time: Sequencing familiar events/the day.					
(a) I can talk about significant times of the day, e.g. home time, lunch time, snack time, bedtime, etc.	(b) I understand and can use the words 'before' and 'after' when describing the order of two events.	(c) I can use the word 'between', understanding that it refers to the middle, or second of three events.	(d) I can sequence two or three familiar events and describe the sequence using everyday language.	(e) I can sequence four or more familiar events and describe the sequence.		

Assessment Focus (3): Days of the Week					
(a) I can join in with rhymes for the days of the week in order	(b) I know that some of the words in days of the week rhymes are days	(c) I can name the days of the week (not necessarily in order)	(d) I know the names of the days of the week	(e) I can say the names of the days of the week in order	

# Reception Maths progression of skills document Measures - Capacity

Assessment Focus (1): Vocabulary for filling					
(a) I can understand that capacity refers to how much a container can hold when it is full		(b) I can use the terms full and empty to describe volume / capacity		(c) I can use the terms nearly full and nearly empty to describe volume	
	Ass	sessment Focus (2):	Comparing ca	pacities	
(a) I can compare the volume of two of the same containers holding different amounts	(b) I can use a systematic approach to compare each identical container against the others		• •	a set of three identical m most full to least full	(d) I can order a set of three identical container from least full to most full

Assessment Focus (3): Comparing volume						
(a) I understand that comparing the volume of two of the same containers that hold different amounts, is easier if they are near to each other	(b) I understand that comparing the volume of two of the same containers that hold different amounts, is easier if their bases are on the same level	(c) I can compare the volumes of two of the same containers that hold different amounts and use the terms more and less
